

RETAINED LEADERSHIP SERVICES

Business and Technology Management

An unparalleled resource of business-focused legal technology experts.

Hyperion's **Retained Leadership Services** offers senior management professionals and legal technologists who focus beyond infrastructure to integrate Information Technology with the business of law.

MAXIMIZE SERVICE AND VALUE WITH OUR PANEL OF PROFESSIONALS

Interim CIO/CKO

We provide senior leadership from industry (not "futurists" or "career consultants") for day-to-day IT and KM Management. We understand how to navigate a firm's culture, how legal professionals work, and the effective role of technology in the practice of law. We believe that success is ultimately determined by how technology is actually used.

- Management for Transitional Periods or Organizational Changes
- Senior Advisors to Executive and Technology Committees
- IT Leadership Mentoring
- Vendor Management

Technology Roadmaps

Our experts work collaboratively with Senior Management to establish technology direction and strategy:

- Unique and Proprietary Tools and Methodologies
- Technology Trends and Leading Practices
- Peer Benchmarking
- Systems Planning and Budgeting
- Staffing and Resource Allocation
- Competency Development and Retention

Project Delivery and Execution

Project management certification and experience with the leading legal and enterprise applications and platforms to plan and implement firm-wide technical initiatives:

- Requirements Definition
- RFP and Selection Process
- Definition and Management of ROI and TCO
- Developing and Maintaining Governance Plans
- Solution Landscapes

LEADERSHIP

As a consultancy of experts, we represent the legal industry's most experienced technology and business thought leaders.

EXPERTISE

We provide pragmatic, actionable and specific methodologies to help you address the challenges of your business:

- Codify Policy & Procedure
- Automate
- Delegate & Leverage
- Collaborate & Participate

RESULTS

Our Retained Leadership Services focus on:

- Interim Management
- Leadership Mentoring
- Technology Overviews
- Requirements Definition
- Enterprise Strategies and Deployments
- Project Management
- Governance & Compliance
